An-ageney-within-a-ship-established-te-assist-command by-oollestion--papid-ovalustion--and-dissemination-of tactical-information---A-second-function-may-be-the controlling-of-aireraft-when-authority-is-so-delogated by-semmand. A combat information center is an office charged with the function and responsibility of keeping the commanding officer and higher commands embarked, other control stations, and other units in the task force (group) (unit) informed as to the tactical situation as apparent in CIC, including the location, identity, and movements of all friendly and enemy aircraft, large missiles, surface ships and craft within the air defense area. In addition, when the tactical situation indicates, and the limitations of space and availability of equipment and trained personnel permit, CIC may be called upon to furnish information required to carry out the following functions:

- (a) Control of aircraft in the air defense area, offensive or defensive or both.
- (b) Control of small craft.
- (c) Control of radar countermessures.
- (d) Target indication.
- (e) Assistance in A.A. coordination.
- (f) Navigation and piloting.
- (g) Assistance in anti-submarine warfare operations.
- (h) Assistance in the control of guided missiles.
- (i) Supervise and/or control radio countermeasures.
- (1) Control of, and/or stationing of, surface or airborne pickets, patrols, or searches.
- (k) Search and rescue coordination.
- (1) Control of tactical deception.

Exercational information concerns itself with the dayby-day, hour by hour movements of the enemy knowledge. If which a tactical commander must have in order effectively to fight the enemy wherever he man, show himself. He must evaluate, instantly, visely and effectivel, what each hit of information means, put them together and wake fromjet decisions accordingly

bitelliques oncerns itself with the long-nauge walnation of enemy movements, should be done by specialists who have access to a wide whenhe of sources of operational information from the flow of which they can make hood conclusions offecting the whole field of specations and the whole war

The one is tactical. The other is strategic. The strategic intelligence expert slowed not be permitted to interfere in the making of tactical decisions

Strategic and national policy intelligence is that composite intelligence, interdepartmental in character, which is required by the President and other high officers and stoffs to assist them in determining policies with respect to national planning and security, in peace and in war and for the advancement of hoad national policy. It is political-economic, unbitary in scope, of common concern to more than one apence, must be objective, and transcend the exclusive competence of any one department.
